

We can make it up to Heaven

Music by Christian Willisohn

Lyrics by Alexandra Mayer

We can make it up to Heaven
We can make it if we try
Life has been too hard for most of our time
Now we break away good-bye.

We can make it up to Heaven
We can reach the virgin sky
We've been strong enough to fight against the tide
Now we spread our wings and fly.

*Oh without you I could never be the same
I was down but then I heard you call my name
When you left you really opened up my mind and made me
Think about myself and not give up again, I won't give up again.*

We can make it up to heaven
And we won't stop on our way
We'll climb the highest mountain, cross the wildest seas
No one else but you and me.

We can make it up to Heaven
We can make it if we try
Live was way too hard, it's all been wasted time
Now we lay it on the line.

*Baby without you, you see, my heart's an empty space
Former times, I felt them tryin' to keep up pace
When you left, there was no other chance but keep on fighting
Missing you so much made me feel so blue, I needed you.*

We can make it up to Heaven
We can reach the virgin sky
We've been strong enough to fight against the tide
Now we spread our wings and fly.
